The following are the Average Assessment Prices to be used by grower packers and fresh marketers to determine their assessments. The prices were determined from a two phase process:

1. Once the ORBC received from packers the results of the 2019 Average Grower Packer Assessment Price Questionnaire, a non-weighted average was compiled.
2. The Oregon Raspberry & Blackberry Commission reviewed the prices and made adjustments based on their knowledge of industry prices for the year.

We would like to express our thanks to all the packers who participated in the price survey.

Grower Packer / Fresh Market Assessment Prices[†]

The only purpose for these prices is for determining the grower packer and fresh market assessments.
