RE: 2024 Average Price Estimates & Total Pounds

Each year the Oregon Raspberry & Blackberry Commission must estimate the average packer price paid to growers for the current harvest season. **This information is used to determine the assessment for grower-packer and fresh market operations ONLY.** There is no other purpose for this survey information. We ask for your help with this process to ensure accuracy. Prices provided are used to create an average for each variety. Packer specific information is kept confidential.

New for 2024 – the ORBC would like each packer to report their 2024 total purchased pounds for combined blackberries and individually for raspberries and black raspberries. In past years the ORBC cannot accurately report on total pounds harvested until well into the following spring. We hope this early reporting will give the industry earlier and accurate total pounds information.

Please fill out the survey below and **return via email by noon on September 9th, 2024.** Thank you for your help.

Email Reporting is Preferred: darcy@oregon-berries.com
